### \*\* Unlimited Bandwidth

- Unlimited bandwidth corresponds to a significantly high bandwidth limit, that 99 percentile of Edmingle accounts never reaches.
- If you do end up needing more than our high limit, we'll send you a friendly email giving you the heads up that you're close, and may be charged for extra bandwidth. You can always check on the bandwidth usage and pricing in your reports.
- If you already know your bandwidth requirements might be very high and that your requirements might be greater than 99 percentile of Edmingle accounts, get in touch with our team and we'll be happy to put together a custom plan just for you.
